11. Thank you to all that donated christmas lights! With your help, we saved 4,488 ft of Christmas lights out of the landfills and we also saved 191 lbs of CO₂ per kwh. The lights we collected will be sent to Waseca, then given to the disabled adults which give them jobs by stripping the copper. If all the lights were replaced with LED we'd save \$963.16. You use 191 lbs of Co₂ for regular bulbs, but if you switched to LED you would be using 3.8lbs. So by switching your lights to LED, you'll be saving landfills and money.
