15. 36 billion cans are thrown in the landfill each year. Recycling aluminum takes only 5% energy. 120,000 aluminum cans are recycled every minute. All it takes is throwing a can in a recycling bin which will only takes 10 seconds. PLEASE RECYCLE.

You can put paper, cans, bottles, and anything with the recycling triangle on the bottom.
77% of people recycle something and 23% don't recycle anything
about 67% of adults recycle aluminum/metal cans only 59% recycle paper and 57% recycle plastic.

Only throw things in the recycling that can and should be recycled. It is a lot easier for everyone in school to get along with the Earth Yes class if you try to only recycle correct things. Also, only empty bottles please.

16. Why should you take off (donate) can tabs?

You should donate pop tabs because they go to the Ronald McDonald House. This is what they are for "Keeping families with sick children together and near the care and resources they need".

How do you donate can tabs?

Put the tab in the orange tube by the giant bottles.
