

The WWG High School Independent Reading Requirement

1. Students must earn at least eight Accelerated Reader points per semester in order to satisfy the graduation requirement.
2. Students should choose books close to or above their lexile scores as determined by NWEA tests. Books must be approved by the student's independent reading supervisor. The former "Great Books" option no longer applies.
3. A 60% score on an Accelerated Reader book quiz is passing. With a passing score, the student earns the total possible Accelerated Reader points value for the book, not the value calculated by Accelerated Reader.
4. Students may submit books for approval for 2nd semester starting on December 1st. They may test on the books after 2nd semester begins.
5. Books read for a particular class may not be used to satisfy the independent reading. A listing of books used in classes is located under "Academics."
6. All tests will be administered by Torild Jacobsen during regular lab hours and as time permits during the day. Students must show the original approving email from the IR supervisor in order to take a quiz.
7. Students who enter WWG after the start of the second or the fourth quarter may be excused from the requirement for the respective semester.
8. With three weeks left in first semester and with three weeks left in 3rd quarter, students who have not completed the IR requirement will be "warned" on the ineligibility list. Ineligibility policy will follow regular class policy at that point. Those who have not completed the requirement by the end of first semester or 3rd quarter will have the equivalent of an "F" grade and will be ineligible for the first two weeks of the following quarter.
9. Students may satisfy the Independent Reading requirement using non-fiction as well as fiction titles.
